

# FPS-01 Field Probe Stand

## Product Overview

The TDK RF Solutions FPS-01 Field Probe Stand is designed for use in anechoic chambers and shielded test rooms in compliance with IEC-801-3 requiring the positioning of sensors up to either 1.5 m or 80 cm.

The field probe stand is constructed of durable, non-conductive, commercial grade fiberglass and plastic that will not interfere with RF test measurements.

The field probe stand's base mast is 1.2 m high. The mast extension piece easily snaps into the base mast and extends the height to 2.4 m. The field probe support can be clamped to the mast at any point, allowing you to place the field probe precisely where needed. The FPS-01 supports equipment up to 10 kg.

A screw type clamp can be supplied with each stand and additional clamps are available upon request.

**The TDK RF Solutions FPS-01 Field Probe Stand is designed for use in EMC test environments. The FPS-01 is adjustable for positioning field probes to heights of up to 2.4 meters.**

## Features

- IEC-803-3 compliant
- Adjustable heights

## Applications

- IEC-801-3 compliant positioning
- Isotropic field sensor mounting

## Mechanical Specifications

Overall Dimensions:

Height:	1.2 m (48")
Base:	.38 m (15")
Weight:	9 kg (20 lbs.)

Construction:

Base:	Delrin
Tube:	fiberglass
Finish:	N/A

# FPS-01 Field Probe Stand

## Ordering Information

---

Product:	Field Probe Stand
Model Number:	FPS-01
Warranty:	1 year limited
